

Care at Home

Our visiting care service provides companionship and practical support from a dedicated team of local carers. It's designed for flexibility and continuity.

Do you or someone close to you need that extra bit of help at home? Our kind, reliable and local care companions are here to assist. They work with a unique flexibility to suit your specific needs and lifestyle.

At the heart of our service is the belief that care should be more than just routine tasks. It's about nurturing relationships, building trust and ensuring continuity. We focus on the individual, prioritising the warmth of companionship and the human connection.

Whether for yourself or a loved one, we're here to help you enjoy the comfort and familiarity of home.

Best wishes

Leigh and Anita McDonald

A Dedicated Team

We introduce a small team of care companions; the same friendly faces who will visit you every time. These dedicated relationships give you reassurance about who is coming into your home and when.

A Personalised Approach

With a small team, you and your care companions can create a real, personal connection built on trust and familiarity. You can enjoy spending time together, whilst receiving the care and support you need.

Practical Care and Support

Support can range from making meals, help with personal care, to keeping your home comfortable, clean and safe. Assistance out and about locally helps maintain your independence and quality of life.

Quality Time To Care

To create a relaxed and caring environment, our care companions only offer longer visits and sits. It gives them time to spend with you and provide the quality service you deserve.
